Acting Chief, FBIB

Recommendation for Meritorious Increase  
for [redacted]

25X1

1. Reference memorandum of 29 July 1948 from Chief, Mediterranean Bureau. It is believed that recommendation for reward for superior accomplishments submitted in behalf of Mr. [redacted] is not sufficiently compelling to receive consideration from the Committee. Justification submitted appears to rest primarily on voluntary overtime and excessive workload, and mention of "unusual functions" is couched in terms too general to be convincing. The memorandum is therefore being held in this office without action.

2. If it is desired to resubmit a recommendation for meritorious increase for [redacted] it is suggested that specific description supported by examples be submitted to demonstrate that [redacted] has consistently been performing functions or effecting achievements beyond those reasonably to be expected of a CAF-9 Administrative Assistant.
